COMMUNITY AWARDS

In addition to the SIAs, the USGBC-LA is honoring the ongoing importance of community to the USGBC-LA chapter and its goals by recognizing that spirit in seven people and groups. The Community Leadership Awards are selected by the Chapter leadership.

Environmental Justice Leader of the Year Award:
SoCal NOMA (National Organization of Minority Architects)
Recognizing outstanding leadership in integrating the conversations around built environment, sustainability and equity. In particular, SoCal NOMA’s leadership and hard work to diversify the green building industry, has earned it this award.

Kevin Devine Award:
Robert Berube, Chief Engineer, Kilroy Realty Corp.
Recognizes an individual who is truly leading in sustainable building operations, in the day to day and by setting an example for others. In particular, Robert embodies this through his passion and curiosity, his mentoring that inspires others, his sourcing of new technologies, and his exceptional ability and desire to guide property managers along the sustainable path.

Corporate Sustainability Award:
Google
Recognizes outstanding leadership in leveraging influence to increase the prevalence of sustainable business practices across the Los Angeles region. In particular, Google’s leadership in corporate social responsibility around financial innovation, corporate commitment, and sustainable development, has earned it this award.

Community Impact Award: Neighborhood Council Sustainability Alliance (NCSA)
Recognizes outstanding leadership paving the way toward a more sustainable future. In particular, NCSA’s leadership and hard work to bring sustainability into our local communities, has earned it this award.
COMMUNITY AWARDS

**Community Impact Award:**

**Neighborhood Council Sustainability Alliance (NCSA)**
Recognizes outstanding leadership paving the way toward a more sustainable future. In particular, NCSA’s leadership and hard work to bring sustainability into our local communities, has earned it this award.

**Partner of the Year Award:**

**Los Angeles Trade Tech College (LATTC)**
Recognizes outstanding leadership in working creatively with others to advance sustainable initiatives and develop ‘green’ talent across the Los Angeles region. In particular, LATTC’s leadership and hard work in developing future talent for our region is paramount to a more sustainable future for all of us.

**Emerging Leader Award:**

**Katie Freeze, Sustainability Coordinator, Leading Edge Consulting Services**
Recognizes an individual who is still early in their career but is demonstrating industry leadership in pushing us all forward to a more sustainable built environment. In particular, Katie’s leadership in our community and hard work in leading our Legacy Project has earned her this award.

**Hearts of the Chapter:**

**Paul McGunnigle, Owner, Howard Building Corp.**
**Sara Neff, SVP of Sustainability, Kilroy Realty Corp.**
Recognizing two member-volunteers who have gone above and beyond in representing their community for many years and leaving a sustainable legacy.

Arup is the creative force at the heart of many of the world’s most prominent projects. For more than 70 years, we have aspired to do work that makes a positive impact on the world. Today, we believe that delivering sustainable outcomes is critical to shaping a better world for ourselves and future generations.

Arup offers a broad range of professional services that combine to make a real difference to our clients and the communities in which we work. From 89 offices in 33 countries around the world, our 15,000 planners, designers, engineers, and consultants work together to deliver innovative and sustainable projects of all kinds.
What will Los Angeles look like in 2050?

The answer depends, in large part, on the landscaping choices we make right now.

In and Out in LA

The lush, leafy, authentic look of LA isn’t just lovely - it protects our health and the city’s resilience. While authenticity looks different from neighborhood to neighborhood, there is common ground. Here is

Out: Boring Expanses of Lawn In: Architecture-Enhancing Designs
Out: Hot Synthetic and Gravel Lawns In: Cool IdealMow Meadows
Out: Stuffy Rows of Annuals In: Vibrant Year-Round Blooms
Out: Fire-Bomb Palm Trees In: Lush, Leafy Native Oaks
Out: Stiff, Straight Patios and Drives In: Diverse Materials that Flow
Out: Conformist Parkways In: Taking Design Appeal to the Curb

At Hathaway Dinwiddie, we understand that the environment matters. We take the time to seek out and recommend the most sustainable solutions for our clients’ projects, and the settings in which they reside. This is a reason we are often sought out by owners and architects for our sustainability expertise. Over 45 percent of our staff members are LEED Accredited Professionals, and all of our project teams are knowledgeable about the LEED Certification System. This experience enables us to provide clients with the most advanced ideas in green building and sustainable construction practices.
