How to get involved in creating a more sustainable community for all

- Become a Member
- Join a Committee
- Be a Mentor
- Volunteer
- Support an Initiative
- Build Yourself
Become a USGBC-LA Member!

Our members are at the heart of the work we do, and we can’t achieve a greener, more equitable built environment without their dedication! Join our community of enthusiastic thought leaders, sustainability professionals, subject-matter experts, students, educators, and advocates who are passionate about inspiring and accelerating change.

Benefits include:

- Free or discounted registration to all USGBC-LA events.
- Broaden your industry knowledge through curated experiences and training.
- Learn from leaders in the green building movement and grow your professional and personal skill sets.
- Guide our collective community impact and join a branch or committee!

Available to join as an individual or as a company.
USGBC-LA Member Committees
Become a changemaker in your community

Building Decarb
Advancing education, policy and programs on building decarbonization for the greater LA region.

Construction
Providing spaces for collaboration to advance sustainability in construction for the greater Los Angeles Region.

Diversity, Equity, & Inclusion
Preparing change agents in the fight for environmental, socio-economic, and racial equity on the green building sector.

Emerging Pros
Convening fresh new perspectives from some of the brightest minds rising in our sector.

Green Homes: LA
At the nexus of health and sustainability, providing insight and resources to green the places where we live.

Green Schools
Engaging Southern California schools in a dialogue that encourages the growth of a sustainable school system.

LASER
Gathering corporate sustainability leaders to empower and support a stronger focus on sustainability and environmental stewardship as sound business principles.

Legacy Project
Fostering environmental, economic, and social sustainability across LA’s diverse neighborhoods.

Urban Landscape
Protecting and expanding access to high-quality green space.

Women in Green
A forum for women and allies to make an impact in Los Angeles, build networks, celebrate women leaders and create healthy, inclusive, sustainable, resilient communities for all.
A gift to the underserved communities in our region from the USGBC-LA members who assist in designing, building, and supporting it.

The 2022 Green Gala helps support our Annual Legacy Project.

Submit your proposal by December 19th to have your project funded!

Thank you for being a part of this important community project!

Sustained Market Transformation

- Accelerate adoption of new technology
- Expand our definition of the workforce of the future
- Think long term about adaptation and resilience
This struggle for progress is eternal.
The joy is in the small moments of triumph.
The happiness is in the friends you make along the way.
